

PARADISE POS

You rely on your POS software for more than entering orders and settling checks for your restaurant — you also need a system that you can leverage for inventory management and reporting. That's why Paradise POS developed iPad POS software that restauranteurs can rely on to take accurate orders, improve productivity and decrease costs.

- Multi-Station
- Customer Database
- Customizable Menu
- Gift & Loyalty Program
- Labor Management
- Offline Capabilities

*Station configuration differs per merchant due to diverse needs; station pictured is not indicative of what you may receive.

Restaurants & Paradise POS

Paradise POS offers a cutting-edge iOS-based point of sale software for technology savvy restaurants who demand a best-in-class mobile solution for their business needs.

- iPad Ready
- Easy to Learn Interface
- Outstanding Tech Support
- Mobile Access

FEATURES

CUSTOMIZABLE MENU

Customize menu screens to make the ordering and checkout process intuitive, simple, and accurate. Easily modify or change menu items, pricing, promotions, or specials to attract new customers. The Paradise POS training team will work with you and your staff to optimize your menu for your unique business needs and show you how easy it is to change your menu whenever you want.

- Items Maintenance
- Modifier Maintenance
- Combo Groups
- Customizable Table Diagram

REMOTE DASHBOARD

Paradise POS enables you to easily access, monitor, and report data from anywhere at any time, even on your mobile device. We have created a simplified approach to an interactive dashboard with embedded analysis capabilities that allows users to quickly generate at-a-glance reporting and identify areas that need immediate attention.

- Remote Mobile Access to Dashboards
- Inventory Reports
- Sales Tax & Tip Tracking
- Payroll
- Labor Costs

ADDITIONAL FEATURES

- Kitchen Display System (KDS)
- Allow EBT for items
- Assign Vendors
- Ticket Commands
- Transfer Tickets
- Split Tickets
- Add Gratuity
